SUMMARY

Motivated Frontend Developer currently advancing my skills through a specialized course at Hyper Island School in Sweden, equipped with a comprehensive understanding of both frontend and backend technologies. Proficient in HTML, CSS, JavaScript, and popular frameworks and libraries such as React, Bootstrap, and Tailwind CSS. Additionally skilled in server-side technologies including Node.js, Express.js, and databases like MongoDB and PostgreSQL. Experienced with the full software development lifecycle, from concept through deployment, leveraging Git, GitHub, and RESTful APIs for efficient, scalable projects. Eager to apply my technical knowledge and collaborative spirit to create impactful web applications and contribute to innovative projects within a forward-thinking team.
